**Description of the Event:** A workshop on “Technical Paper Research Writing” was conducted on April 21, 2023 and Dr.S.Arungalai Vendan was invited as a resource person to hold the workshop. The workshop was for the students who were interested to learn to how to write a research paper which will be helpful in further semesters. Dr.S.Arungalai Vendan started by giving a basic knowledge about research and how to explore various fields to write a paper. He also explained about each and every concept which is mandatory to know before writing a paper. He asked the students to focus mainly on abstract, results and conclusions as they are the main parts of a research paper. He also mentioned few publishers to refer from in order to have in depth knowledge about the paper students are writing on and motivated students to have a quality research paper which will be helpful in future.

The participants found it very interesting and knowledgeable and came to know a lot about how to start writing their first research paper and made it an interactive session.

### Speaker feedback:

Students have the potential to be involved in research & engineers themselves in paper writing. Best wishes to all. Thanks the management & students for this opportunity.
