

Title	Alumni Talk on “ Unleash Your Potentials Through Hackathons ”	
Department	Electronics and Communication Engineering	
Date	From :9 th November 2024	To : 9 th November2024
Time	From :10:00AM	To: 11 AM
Brief Description (4-5 Lines Max)	<p>The Department of Electronics and Communication Engineering organized an alumni talk titled “Unleash Your Potential Through Hackathons” on November 9, 2024. The speaker, Mr. Ayush Bansal, an alumnus from the ECE department (Batch of 2019-2023), is currently employed as an Analog Layout Engineer at Capgemini Engineering. He discussed the importance of participating in hackathons and explored real-world applications of VLSI, sharing relevant case studies. At the end of the session, students engaged with alumni, seeking advice and clarifying doubts on setting career goals in VLSI, along with guidance on achieving them through certification courses, projects, and hackathons. Overall, the session was highly informative</p>
