| Brief Description (4-5 Lines Max) | <p>Department of Electronics and Communication Engineering conducted an alumni talk on “<b>Learn, Adapt, Grow: Navigating the Early Years of Your Career</b>” on 19th November 2025. The speaker, <b>Mr. Sudhanva Lokesh</b>, is an alumnus of ECE department (Batch-2022-2026). He is currently working as validation engineer in “<b>Embitel Technologies</b>”. He highlighted the importance of coding, problem-solving skills, application programming interfaces (APIs), the Internet of Things (IoT), and computer networking. The session concluded with an interactive discussion during which students sought guidance from the alumni and clarified their doubts about identifying career goals in artificial intelligence, software technologies, and related fields. Overall, the session was informative and provided valuable insights into career planning and skill development.</p> |                                      |
